#### To Cleanse the Scalp

Most soaps and prepared sham-coos contain too much alkali. This dries the scalp, makes the hair prittle, and is very harmful. Just ordinary mulsified cocoanu oil (which is pure and entirely grease-(which is pure and entirely grease-less), is much better than soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. The hair dries quickly and evenly, and it leaves it fine and silky, bright, justrous, fluffy, and easy to man-age.
